```
(.venv) milton@miltons-mbp Hello % python3 project_1.py
For each day, enter the rain and wind data, separated by a space
For 0.2 inches of rain and winds with speeds of 25 mph, enter '0.2 25'
Once done, enter -1

.2 25
1 35
4.5 45
-1
The average rain is 1.9 inches
The average wind is 35.0 mph
The weather severity for these 3 readings is: 54.0
